

A home delivery (mail order) pharmacy service you can trust.

Express Scripts® Pharmacy is the home delivery service trusted by Blue Cross and Blue Shield of Texas (BCBSTX) to help lower costs and provide convenience for you and your employees.

Value to Employers

- **Adherence**
Members are more likely to adhere to their drug therapy using 90-day prescription services, like Express Scripts® Pharmacy. Members with chronic medical conditions can increase their adherence 7-10% with a 90-day supply compared to a 30-day fill.¹
- **Potential Decrease in Overall Drug Ingredient Costs**
Lower overall ingredient costs for brand medications combined with no dispensing fees may result in lower cost per delivered prescription.

Value to Members

- **Convenience**
Prescriptions are delivered to the member's address of choice, within the U.S. Members have multiple options for ordering and can get up to a 90-day supply of medication at a time.² Medications are mailed in tamper-evident packaging for privacy.
- **Service**
Members can choose to receive refill and order notices by phone, text or email. A support staff including knowledgeable pharmacists are available 24/7. There is no additional charge for standard shipping. Members can use a mobile app to manage their prescriptions (refills, track orders, make payments, set medication reminders and more).
- **Savings**
Ninety-day supplies offer deeper discounts through bulk purchasing and no dispensing fees. That means pharmacy costs may be lower for plan sponsors and members.
